

Caronne

Reveals the power of your data!

FACTSHEET CARONNE

Reveals the power of your data!

Daily practice

On a daily basis lots of **information** passes through your organisation. Information due to the transactions being made by the clients, due to changing rates and market values, due to clients contacting you. But do you link these information in the most optimal way? And can you really answer YES to all of the following questions?

- Do you always send your **regulatory reports** on time and without errors?
- Are you **compliant** with regard to **Basel**, **CRD**, **FATCA/CRS** and **EMIR**?
- All **financial reporting** is **governed** in such a way that a **Single Point of Truth** exists?
- Is the **collection of data** unambiguous, straightforward and **GDPR ready**?

How we can help

Result Improvement
We can help you discover new opportunities from your data

Insight in Information
We implement BI tools and set up your reporting & analysis environment

Organising Data
We collect and structure your data and standardize processes around it

Caronne

Reveals the power of your data!

How we can help

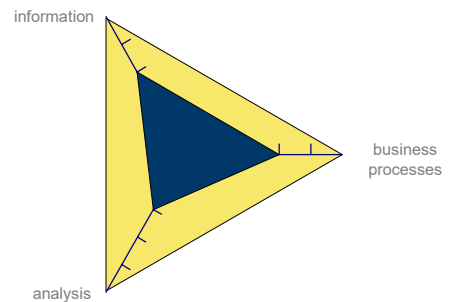

We can help you

- Organise and structure your data better using **data warehousing** and by defining clear ownership and compliance via **data governance**
- Give you more insight in information by reporting data via **Business Intelligence**
- Improve your results, reduce your costs or enhance your customer intimacy using **Big Data & Analytics**

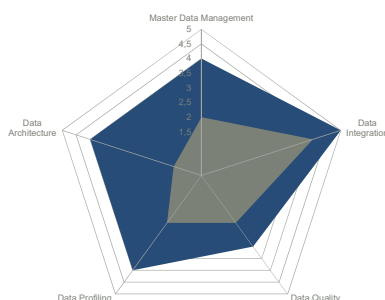

What we offer

➤ IBA Quick Scan™

Our method will give you **insight** as to how **efficient** your organisation uses information. It will also describe **scenario's** of the desired situation on a **clear and concise** way.

➤ Data Governance Spider™

This method will give you **exact understanding** of the data, its **governance** and how it complies with **regulatory issues** associated with it. The **current situation** is analyzed as well as the different ways to **improve**.

Caronne

Reveals the power of your data!

➤ Introduction Big Data Roadmap

With a **brain storm** as starting point, we define a **Roadmap** which will reflect how your business can improve by introducing **Big Data** in your organisation.

➤ Interim Source

Consultancy in the domain of **information management**, eg: project management, business analytics, data science, design, development and test.

About us

We are proud to share what our clients are saying that sets us apart from other companies.

➤ Professional Knowledge combined with Subject Matter Expertise

We believe integrating data can be done most effectively if there is also an in depth knowledge of the meaning of the data. Therefore we combine our professional knowledge of information management with financial expertise.

➤ Direction decisive, No nonsense, Custom tailored

Methods and methodologies are made for making the work easy. Though we are trained in the newest methodologies such as Scrum, Agile and Lean and also in more established methods such as RUP and Prince II, we look at the most effective way to produce the best results for you.

➤ System independent

Caronne has no liaisons with any system integrator or solutions provider. Our focus is 'customer only'.

What clients say

“Caronne’s project manager was like a tower of strength. In short notice he was able to know what was needed to make the next step with our BI Team. He made a roadmap and made it happen, with the team, while understanding and working with the environment and the stakeholders.”

“Caronne’s advisor is a competent leader in the finance area. He has a sharp eye to avoid the pitfalls in a data warehouse project, where he combines his knowledge of tooling and dwh concepts with the practical experience in project management. His relentless drive to deliver is noteworthy.”

We are happy to invite you for a meetup!
